3. 6. 2015, at 14.47, in [Event](#) posted by IGT

During the "Project Week 2015" a presentation of optional courses will take place for the students of:

- 1st level (GIK GMT): **Wednesday, 10. 6. 2015 at 9.30 and again at 10.30 (P3 and P5).**
- 2nd level (GIKM): **Thursday, 11. 6. 2015 at 12.00 (P1, later P5)**

Presentations of 1st level will be held simultaneously in two classrooms (P3 and P5), divided into the following professionals:

- INFORMATION TECHNOLOGY AND MEDIA DESIGN (P5)
- GRAPHIC TECHNOLOGY (P3)

Presentations will be short (two or three minutes), summed up the essence of the subject, with a focus on the key information (who, what, how). At the same time we will present the recommended connections between courses. The aim of the presentation is not to make you bored with the tedious details of courses that you can find on our new website, but we want to offer concrete answers to the questions and uncertainties, which appear in the selection of optional courses.

Come to get complete information, appropriate expectations and right decision. Also students of other professionals at Department of Textiles, Graphic Arts and Design and Faculty of Natural Sciences and Engineering are welcome.
