About project

In the first half of the spring semester 2022/23, the students collaborated with the Slovenian Hospice Society at the University of Ljubljana, Faculty of Arts, Department of Information Design. The purpose of the collaboration was to update the corporate identity currently used by Slovenian Hospice Society. In doing so, it was necessary to prepare adjustments to the trademark and logo that Slovenian Hospice Society currently uses, but above all it was necessary to prepare adjustments to the logo for the areas that Slovenian Hospice Society deals with. In accordance with the adjustments, it was necessary to prepare other elements that Slovenian Hospice Society uses for its appearance. This included the preparation of materials intended for print and social networks. Below, you can see the solutions prepared by the students of the elective course Information Design at the 1st level of the Graphic and Interactive Communications study program.
