Study year 2022/2023

Typography Map Infographics 22/23+

As part of the project, the students created »**Typography Map Infographics**«. Each group of students was given a template – a typographic representation of the name of one of the states of the United States of America – and their task was to use this as the central information of the infographic. They had to design the infographic containing the name of the state in a visually appealing and interesting way, taking into account the typographic style. The infographic that was to contain the name of the state was to represent the selected characteristics of the state.

As part of the Graphic Prepress course, 1st year students of the Graphic and Media Technology programme under the mentorship of prof. dr. Raša Urbas participated in a project supported by the **Slovenian Research Agency** under the **bilateral agreement on scientific research cooperation between the Republic of Slovenia and the United States of America** in the academic year 2022/23 (*bilateral project BI-US/22-24-157*).

GWG infographics 22/23+

The 1st year students of Graphics and Interactive Communication took part in the international project »**GWG Infographics**«, which takes place every year under the auspices of the international graphics association [Ghent Workgroup \(GWG\)](#), as part of the course Graphic Prepress under the mentorship of Prof. Dr. Raša Urbas.

Based on various topics in the field of graphic prepress and design, they have created interesting, attractive, clear and above all, informative infographics. Indeed, the purpose of infographics is to present technical topics, which are sometimes difficult to understand, in a simple, useful and clear way. The students have shown a lot of creativity, ingenuity, innovation and willingness to work when creating infographics.

GWG video tutorials 20/21+

In the summer semester of the academic year 2020/2021, the first-year students of Graphic and Media Technology, under the mentorship of assoc. prof. dr. Raša Urbas, assist. prof. dr. Urška Vrabič Brodnjak and assist. Andrej Učakar participated in the international project »GWG video tutorials«.

The aim of the project was to prepare more interesting and visually attractive content of the video tutorials of the international graphic association Ghent Workgroup (GWG), which would present individual contents of graphic design to users in a clear, concise and educational way.

The project produced 15 excellent video tutorials. In creating them, students had to think deeply about the

selected graphic design content and consider the existing corporate identity of the GWG association when creating the video. Most of the video content was created in English, some videos were also created in Slovenian.
