NASTAVITEV OMREŽJA EDUROAM NA MAC OS X 10.11

- 1. Sledite navodilom na cat.eduroam.si. Ko potrdite obe pogovrni okni in vpišete AD uporabniško in in geslo. Bi morali videti naslednje:
 - a. V System Preferences → Profiles:

| eduroam | University of Liubliana (S | eduroam |
|------------|----------------------------|--|
| 2 settings | oniversity of Ljubijana (5 | rudents at oniversity in Ljubijana, vermet |
| | Description N U Lj | etwork configuration profile 'Students at niversity in Ljubljana' of 'University of ubljana' - provided by eduroam |
| | Signed T | ERENA |
| | Installed 23 | 3 Oct 2015 10:26 |
| | Settings C | ertificate nes CA za streznike Eduroam |
| | W | /i-Fi Network duroam |
| | DETAILS | |
| | Certificate | |

b. V aplikaciji Keychain Access pa pod isklanim pojmom eduroam:

| 0 | | |
|-------------------|---|-----------|
| Click to lock the | login keychain. Q eduro | am 😢 |
| Keychains | | |
| 💣 login | | |
| 🖗 iCloud | | |
| System | | |
| 🛅 System Roots | | |
| | Name ^ Kind Date Modifie | d Expires |
| | Arnes CA za streznike Eduroam certificate | 18 Sep 2 |
| Category | Leduroam 802.1X Password Today, 10:26 | |
| All Items | | |
| 2. Passwords | | |
| Secure Notes | | |
| My Certificates | | |
| % Keys | | |
| Certificates | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |

- 2. Iz Keychain Access izvozite certifikat Arnes CA za streznike Edurom (desni klik, Export).
- V System Preferences → Profiles pobrišete profil eduroam (klik na ikono minus pod seznamom). Rezultat tega je tudi to, da v Keychain Access ni več prejšnjih zapisov.

- 4. Dvokliknete certifikat **Arnes CA za streznike Edurom.cer**, ki ste ga izvozili v 3. koraku, s čimer ga ponovno dodate v **Keychain Access**.
- 5. V Keychain Access dvokliknete certifikat in pod možnost Trust izberete Alweys Trust:

| Certificate Root certificate authority Expires: Sunday 18 Sept Sthis root certificate is | i ke Eduroam Y tember 2022 at 14 h 29 min 03 s Central European Summer Time <mark>s not trusted</mark> |
|---|--|
| Trust When using this certificate: | Always Trust ? |
| Secure Sockets Layer (SSL) | Always Trust |
| Secure Mail (S/MIME) | Always Trust |
| Extensible Authentication (EAP) | Always Trust |
| IP Security (IPsec) | Always Trust |
| iChat Security | Always Trust |
| Kerberos Client | Always Trust |
| Kerberos Server | Always Trust |
| Code Signing | Always Trust |
| Time Stamping | Always Trust |
| X.509 Basic Policy | Always Trust |

6. Med omrežji (statusna vrstica, ikona v obliki pahljače) izberete omrežje eduroam in v pogovorno okno vnesete vašo AD uporabniško ime in geslo:

| enterprise credentials. | | | |
|-------------------------|-----------|--|--|
| | Mode: | Automatic | |
| | Username: | jure.ahtik@ntf.uni-lj.si | |
| | Password: | ••••• | |
| | | Show password Remember this network | |
| | | | |

7. V kolikor ste pravilno izvedli vse korake, ste zdaj povezani na eduroam.
