INFO SHEET: INTERNSHIP

[HENX Videoproduction](#)

LOCATION: GRAZ

What to expect

You'll get insights into all areas of film production.

You'll support the production management throughout all project phases – from pre-production to post.

You'll do independent research on everything production-related (locations, filming permits, catering, equipment, set design, etc.).

You'll be on set as a production assistant.

You'll contribute to editing, animation and sound design.

You'll be part of concept development and execution of online marketing campaigns – for us and for our clients.

Depending on your focus, you'll support our marketing and tech teams, create behind-the-scenes content and social media posts.

You'll help coordinate internal schedules, support with emails and inquiries, and assist with project accounting.

Your profile

You love storytelling and the medium of film.

You're curious, ambitious, a fast learner and can navigate complex structures.

You take ownership and have a hands-on mentality.

You work independently, reliably and in a structured way – but you stay flexible when things change.

You have a good sense of organization, time and resource management

You've worked with Adobe Premiere Pro

You've got a good eye and instinct for editing and design.
