For logging in to the VIS Student Information System [click here](#).

The user name grants access to the online student administration office and represents your digital identity:

- **Students:** Your digital identity looks like this: ab1234@student.uni-lj.si. You already use it to log in to the wireless Eduroam network. Attention: when logging in to the online student administration office, your user name must always be followed by @student.uni-lj.si. In the event you do not yet have a digital identity, you can get one by going to the University's ID Portal at <http://id.uni-lj.si/>.
- **Employees:** Your user account was created by the faculty where you are employed. If you do not yet have a digital identity, please report this to Technical Support at the FNSE of the UL. A digital identity is not an e-mail address, even though it looks similar.

In case you forgot your password, you can reset it at the UL's ID Portal: <https://id.uni-lj.si/index.php?action=resetpass>
