

Career Centres

[NTF](#) › [NTF](#) › [Study](#) › [Career Centres](#)

The Career Centre offers various free services to students:

- career consultations on an individual basis and in groups (advice on choosing a study programme, on entering into employment, on preparing a career plan);
- free workshops and other additional education for students to obtain further competencies and practical knowledge for more effective entry into the labour market – **there are also workshops available in English;**
- information on first-, second- and third-cycle studies;
- information on employment opportunities after graduation;
- presentations of employers and employment opportunities in their organisations for the purpose of establishing contact between students and potential employers even before graduation;
- study visits to organisations where students get to see first-hand the real working environment.

Our most popular projects include: Career Days, Simulation of the Selection Procedure, Elevator Pitch Festival and Challenges Abroad.

For individual counselling, you need to make a prior appointment with

Tina Premelč, Senior Advisor: tina.premelc@ntf.uni-lj.si or 041-358-994.

In order to achieve the set goal, we offer potential employers the following free options to participate:

- advertising job vacancies, student jobs and student practice;
- publishing calls for company scholarships;
- presenting employers and employment opportunities to graduates at UL faculties/academies;
- visits of students to actual working environments;

-
- information on study programmes at the University of Ljubljana and the higher education reform in light of the Bologna reform;
 - other services upon agreement (case studies, roundtables, career days and similar).
