Namembnost opreme:

Oprema je namenjena trdnostnim in deformabilnostnim raziskavam kamnin. Ima nazivno kapaciteto 1150 kN. Merilna oprema je priključena na prenosni računalnik z možnostjo direktnega vodenja posamezne preiskave.

Dostop do opreme:

Laboratorijska oprema je dostopna strokovnjakom po predhodni najavi pri skrbniku opreme. Čas čakanja je največ 1 teden od najave. Cene so določene s potrjenim cenikom laboratorija za mehaniko kamnin.

Cena za uporabo raziskovalne opreme:

- Za izučenega porabnika v 34,75 €/uro
- Dodatni stroški dela operaterja iz raziskovalne organizacije (če uporabnik ni ustrezno izučen) v 10,00 €/uro

Purpose of equipment:

The equipment is designed for rock strength and deformability investigations and tests. It has a nominal capacity 1150 kN. Measuring equipment is connected to the laptop with the possibility to direct manage each tape of investigation.

Accesses to equipment:

Laboratory testing machine is available by prior arrangement at the responsible administrator for equipment. The waiting time is a maximum 1 week from the announcement. Price is determined by the approved fee schedule prepared for Rocks Mechanic Laboratory.

Price of equipment use:

- For trained and experience people the price is 34,75 €/hour
- Addition cost of the operator from research organization (if the user is not properly trained) are 10,00 €/hour
