### ■ Innovative Medicines Initiative Joint Undertaking

H2020-JTI-IMI2-2018-15 IMI fifteenth call for proposals – two stage	
Več informacij:	<a href="#">Spletna stran razpisa</a>
Rok prijave:	24.10.2018
Opis:	<p>The Innovative Medicines Initiative Joint Undertaking invites proposals for its fifteenth call. This supports the development and implementation of pre-competitive research and innovation actions and any relevant accompanying measures to improve European citizen's health and well-being. Proposals may address the following topics:</p> <ul style="list-style-type: none"><li>• IMI2-2018-15-01 integrated research platforms enabling patient-centric drug development;</li><li>• IMI2-2018-15-02 blockchain enabled healthcare;</li><li>• IMI2-2018-15-03 microenvironment imposed signatures in tissue and liquid biopsies in immune-mediated diseases;</li><li>• IMI2-2018-15-04 emerging translational safety technologies and tools for interrogating human immuno-biology;</li><li>• IMI2-2018-15-05 development and validation of translational platforms in support of synaptopathy drug discover;</li><li>• IMI2-2018-15-06 digital endpoints in neurodegenerative and immune-mediated diseases;</li><li>• IMI2-2018-15-07 antimicrobial resistance accelerator programme pillar A – capability building network to accelerate and validate scientific discoveries;</li><li>• IMI2-2018-15-08 antimicrobial resistance accelerator programme pillar B – tuberculosis drug development network to accelerate and validate scientific discoveries and advance the research and development pipeline of new and innovative agents to address the global tuberculosis epidemic.</li></ul> <p>Proposals may take the form of research and innovation actions which require participation by at least three legal entities; each established in a different EU member state or associated country. Micro, small and medium-sized companies with an annual turnover of €500 million or less, secondary and higher research establishments, non-profit organisations, the Joint Research Centre and international European interest organisations are eligible. Legal entities established in a third country may be included in the consortia.</p>

	The total budget is worth approximately €386.72 million.
<b>Proračun:</b>	386.723.008EUR

### H2020-JTI-IMI2-2018-16 sixteenth call for proposals – single stage

**Več informacij:** [Spletna stran razpisa](#)

**Rok prijave:** 24.10.2018

**Opis:**

The Innovative Medicines Initiative Joint Undertaking invites proposals for its sixteenth call. This supports the development and implementation of research and innovation actions and accompanying measures to improve European citizens' health and well-being. Proposals may address the following topics:

- IMI2-2018-16-01 progress new assets, one pre-new molecular entity and one first-time-in-human start, for tuberculosis that act synergistically with bedaquiline, cytochrome bc or cytochrome bd inhibitors;
- IMI2-2018-16-02 progress novel assets, first-time-in-human, for non-tubercular mycobacteria that may act synergistically with bedaquiline and cytochrome bc drugs;
- IMI2-2018-16-03 discover and progress novel assets with new mechanisms of action, one pre-new molecular entity for TB and one pre-new molecular entity for non-tubercular mycobacteria, and biomarkers for TB and NTM infection;
- IMI2-2018-16-04 determination of gepotidacin levels in tonsils and prostatic tissue;
- IMI2-2018-16-05 infection site targeting, antibiotic encapsulated in nanoparticles for treating extracellular bacterial infections;
- IMI2-2018-16-06 functional ethionamide boosters – a novel combination for tuberculosis therapy;
- IMI2-2018-16-07 intravenous treatments of serious infections, such as urinary tract infections, intra-abdominal infections and hospital-acquired pneumonia or ventilator associated pneumonia, caused by gram-negative bacteria, such as enterobacteriaceae, pseudomonas or acinetobacter.

Proposals may take the form of research and innovation actions which require participation by at least three legal entities; each established in a different EU member state or associated country. Micro, small and medium-sized companies with an annual turnover of €500 million or less, secondary and higher research establishments, non-profit organisations, the Joint Research Centre and international European interest organisations are eligible. Legal entities established in a third country may be included in the consortia.

The total budget is worth €46.9 million.

**Proračun:** 49.900.000 EUR

 **The Human Frontier Science Programme**

### NAJAVA RAZPISA - Young investigator grants

<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	19.3.2019
<b>Opis:</b>	<p>The next call is expected to open in December 2018. The Human Frontier Science Programme invites applications for its young investigator grants. These support teams of early career researchers working on innovative approaches to understand complex mechanisms of living organisms.</p> <p>Teams comprising scientists who are all within five years of obtaining an independent position, such as assistant professor, lecturer or equivalent, and who have received their PhD within the 10 years prior to the application deadline, may apply. Teams must comprise between two and four members. The principal applicant must be located in one of the HFSP member countries but co-investigators may be located in any country. Team members are expected to have their labs in different countries and to be first-time collaborators. Postdoctoral researchers are not eligible.</p> <p>Grants are worth up to USD 450,000 per year over up to three years, dependent upon team size.</p>
<b>Proračun:</b>	1.350.000 USD

<b>NAJAVA RAZPISA - Programme grants</b>	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	19.3.2019
<b>Opis:</b>	<p>The next call is expected to open in December 2018. The Human Frontier Science Programme invites applications for its programme grants. These support teams of researchers at any career stage working on innovative approaches to understand complex mechanisms of living organisms. The aim is to allow teams of independent researchers to develop new lines of research through collaboration and to answer questions that could not be answered in individual laboratories.</p> <p>Teams of independent researchers at any career stage may apply, though applications including early career investigators are encouraged. Teams must comprise between two and four members. The principal applicant must be located in one of the HFSP member countries but co-investigators may be located in any country. Team members are expected to have their labs in different countries and to be first-time collaborators. All members of the team must be in a position to initiate and direct their own independent line of research. Postdoctoral researchers are not eligible.</p> <p>Grants are worth up to USD 450,000 per year over up to three years, dependent upon team size.</p>
<b>Proračun:</b>	1.350.000 USD

 **The European University Institute**

**Jean Monnet postdoctoral fellowships**

<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	25.10.2018
<b>Opis:</b>	<p>The European University Institute and the Robert Schuman Centre for Advanced Studies invite applications for the Jean Monnet postdoctoral fellowships. These enable postdoctoral researchers, tenure track academics and other scholars taking a sabbatical to spend a year as fellows at the Robert Schuman Centre in Florence. The three main research themes of the centre are:</p> <ul style="list-style-type: none"> <li>• integration, governance and democracy;</li> <li>• regulating markets and governing money;</li> <li>• 21st century world politics and Europe.</li> </ul> <p>The fellowships are open to candidates who have obtained their doctorate more than five years prior to the start of the fellowship on 1 September 2019. Candidates of any nationality may apply. Fellows are expected to participate in the activities of the centre. The research conducted during the fellowship should lead to a publication. Fellows must live in Florence for the duration of their fellowship.</p> <p>Up to 20 fellowships are available, each worth a monthly stipend of €2,500 as well as travel reimbursement of up to €1,200 over one year. The grant also includes family allowances of €300 per month and dependants allowance of €200 per months.</p>
<b>Proračun:</b>	37.200 EUR

#### ■ The European Space Agency

<b>TENDER - Cyber defence pilot course development scheme</b>	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	25.9.2018
<b>Opis:</b>	<p>The European Space Agency invites tenders for a cyber defence pilot course development scheme. The tenderer will provide cyber defence pilot courses comprising the design, development, conduct, and evaluation of pilot cyber defence education, training and employment courses and events. Additionally, they will analyse and develop the concept and practicalities of implementing standardised cyber courses and associated ETE products and services.</p> <p>Legal and natural persons based in EU member states may submit bids.</p> <p>The contract is worth €600,000 over 48 months.</p>
<b>Proračun:</b>	600.000 EUR

#### ■ The Directorate-General for Migration and Home Affairs

<b>Call for proposals for EU member states to support the improvement of border surveillance</b>	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	16.10.2018
<b>Opis:</b>	<p>The Directorate-General for Migration and Home Affairs invites proposals for its call for EU member states to support the improvement of border surveillance. This supports the improvement of border surveillance by enhancing cooperation between EU member states, including cooperation with third countries. Proposals must address at least one of the following priorities:</p> <ul style="list-style-type: none"> <li>• collection of information on the national situational picture and automated exchange of information European situational picture and the common pre-frontier intelligence picture of the European border surveillance system, EUROSUR, in order to prevent irregular departures of migrants and for early identification of smugglers;</li> <li>• cooperation between neighbouring member states and of member states with third countries, mostly neighbouring, in the framework of EUROSUR.</li> </ul> <p>Projects supporting the deployment of systems allowing automated collection analysis and exchange of information, capable of handling and adapting specific rules and policies for information exchange is given priority. The projects' effects on individual rights and freedoms should be taken into consideration.</p> <p>Applicants must be legal persons and public bodies established in a member state participating in the ISF borders and visa instrument. Applicants must consist of at least two organisations established in two different states.</p> <p>The total budget is worth €20 million and funding is worth between €250,000 and €2.5m per project over up to 24 months.</p>
<b>Proračun:</b>	20.000.000 EUR

### The Directorate-General for Employment, Social Affairs and Inclusion

<b>Operating grants in the area of disability</b>	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	20.9.2018
<b>Opis:</b>	<p>The Directorate-General for Employment, Social Affairs and Inclusion invites applications for its operating grants in the area of disability. These aim to promote and protect the rights of persons with disabilities, so they can fully enjoy their rights. Activities should contribute to the human rights model of disability, improving the accessibility of products and services, or supporting EU youth initiatives targeted at young people.</p> <p>Focus activities are:</p>

	<ul style="list-style-type: none"> <li>• supporting the European Commission by providing analysis and data for critical or emerging issues, especially those where there is a knowledge-gap;</li> <li>• providing input to European Commission's public consultations and drafting position papers in relevant EU policy areas;</li> <li>• supporting national member organisations in their involvement in the implementation, at national level, of main political EU driven processes;</li> <li>• equipping member organisations with the necessary skills and competences to promote the interests and rights of people with disabilities, in particular to enhance equality of opportunities for people with disabilities in employment, and combat discrimination on the basis of disability;</li> <li>• developing information and campaigning tools to inform about EU objectives, policies and actions in the disability field, increasing the network capacity and raising public awareness.</li> </ul> <p>Organisations that have signed a framework partnership agreement with the European Commission, may apply. The activity should be carried out in an EU member state, Iceland or Liechtenstein.</p> <p>The total budget is worth approximately €2,8 million</p>
<b>Proračun:</b>	2.800.000 EUR

### **OPEN CALL FOR UNIVERSITY OF GRANADA MSCA-COFUND ATHENEA3I PROGRAMME**

We would like to inform you that the second call for MSCA-COFUND Athenea3I Programme at the University of Granada has been published.

In this email you can find relevant information about the programme. If you wish to announce this opening in your institution, feel free to use the information we are providing you with. In addition to this, summary with additional data about the vacancies is available in: [http://ofpi.ugr.es/pages/athenea3i2acallenglish/!](http://ofpi.ugr.es/pages/athenea3i2acallenglish/)

The Universidad de Granada (UGR) announces the opening of 10 vacancies for postdoctoral studies. These vacancies are designed for excellent researchers who have experience in the fields of innovation and knowledge transfer.

These postdoctoral contracts will last for 3 years with a maximum gross salary of €4,000 per month and €1,500 in supplements depending on different factors such as the researcher's family situation, or aspects derived from the execution of the projects (required training, planned visits, etc.).

Selected researchers will join multidisciplinary teams to execute research, innovation and development projects conducted at the UGR and will therefore need a supervisor from this institution.

Moreover, researchers will be able to spend time in a different academic institution for an uninterrupted period of between 3 and 9 months, to be scheduled between the 10th and the 18th months of the research project. Researchers may spend this time in either the academic or the business sector. In addition, they may also spend a minimum of 3 months and a maximum of 6 months during the last 18 months of the research project in another non-academic institution.

Thematic fields:

- Environmental Sciences and Chemistry (ENV-CHE)
- Economics, Social Sciences and Humanities (ECO-SOC)
- Information Science and Engineering (ENG)
- Life Sciences (LIFE)
- Physics and Mathematics (PHY-MAT)

The application period lasts from **4 September 2018 to 28 September 2018**. The incorporation into the Universidad de Granada is expected to take place between July – September 2019.

For more information concerning the call and available vacancies (requirements, activity to be carried out and remuneration), please refer to the webpage: <https://athenea3i.ugr.es/>

If you have any further questions, do not hesitate to contact us: [athenea3i@ugr.es](mailto:athenea3i@ugr.es)

Yours faithfully,

The International Research Projects Office

*International Research Projects Office  
Promotion & Advisory Unit*

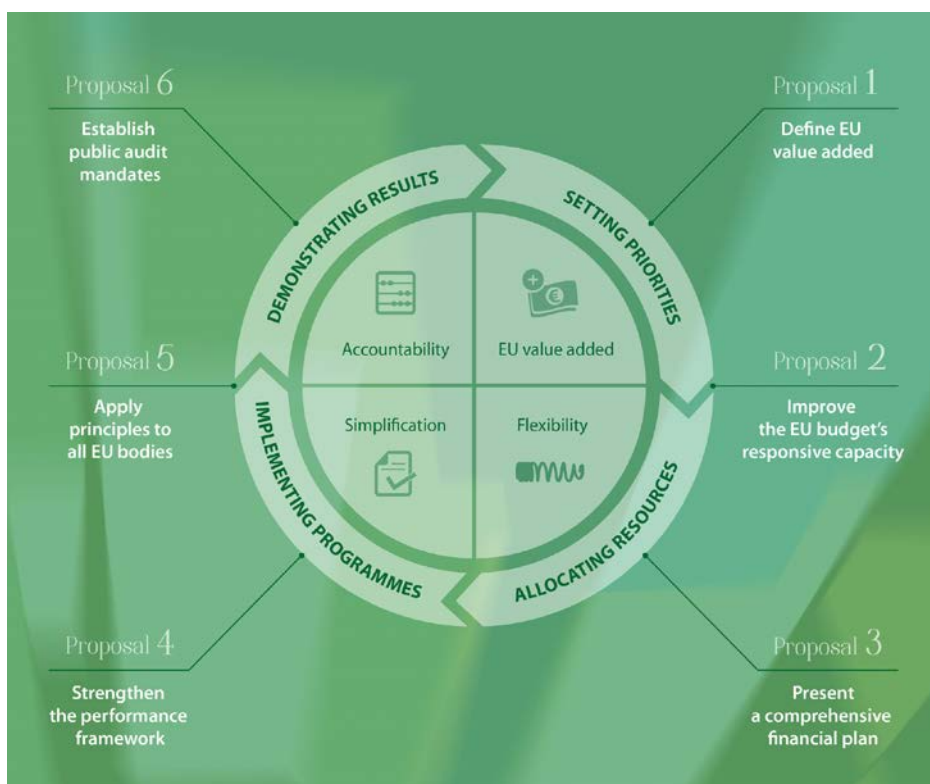

➤ **Revizorji evropskega računskega sodišča o predlogu večletnega proračuna EU za obdobje po letu 2020**

V proračunu EU za obdobje 2021 do 2027, ki ga je predlagala Evropska komisija, bi bilo treba več poudarka nameniti dodani vrednosti, pravijo revizorji Evropskega računskega sodišča. Sodišče sicer odobrava večjo prožnost večletnega finančnega okvira za obvladovanje nepredvidenih dogodkov, vendar opozarja, da spremembe prioritete med področji porabe niso jasno obrazložene v predlogu ali utemeljene z objavljenimi rezultati ocene dodane vrednosti programov porabe EU, ki jo je opravila Komisija.

Revizorji opozarjajo tudi na problem časovne umestitve predloga proračuna, saj se strateški okvirji in cilji ukrepov EU prekrivajo in niso časovno usklajeni. Strategija Evropa 2020 se bo končala pred začetkom novega obdobja večletnega finančnega okvira, nov niz strateških ciljev EU pa še ni bil določen. Predlog dolgoročnega proračuna EU je v praksi postal orodje za oblikovanje političnih ciljev EU po letu 2020 in ni več samo prilagoditev nanje. To ni običajno ali logično zaporedje dogodkov, opozarjajo revizorji.

Evropsko računsko sodišče bi po mnenju Evropskega računskega sodišča moralo biti pooblašeno za revizijo vseh organov EU, vključno z Evropsko obrambno agencijo in predlaganim Evropskim denarnim skladom, in imeti možnost, da revidira vse organe, ustanovljene zunaj pravnega reda EU zaradi izvajanja politik EU.

#### ➤ **Deležniki podpirajo okrepljeno sodelovanje pri ocenjevanju zdravstvene tehnologije**

Na konferenci, ki jo je organizirala Evropska komisija, je več kot 300 deležnikov razpravljalo in podprlo okrepljeno sodelovanje pri ocenjevanju zdravstvene tehnologije na ravni EU. Priporočila bo Evropska komisija upoštevala pri pripravi predlogov za obdobje po letu 2020.

#### ➤ **Priložnosti za vključevanje zasebnega sektorja v zunanje finančne instrumente EU**

Evropska unija je v okviru načrta EU za zunanje naložbe (EIP) napovedala finančna jamstva za projekte v Afriki in sosedstvu v vrednosti približno 800 milijonov evrov. Člani lahko podrobnejše informacije o priložnostih za sodelovanje organizacij iz Slovenije pri teh projektih dobijo na SBRA. Predstavniki Evropske komisije so možnosti za vključevanje zasebnega sektorja v zunanje finančne instrumente EU na področju energije natančneje predstavili na konferenci, ki je bila v Ljubljani 1. junija. Soorganizator te konference je bil tudi član SBRA Inštitut Jožef Stefan.

Načrt EU za zunanje naložbe je namenjen spodbujanju vključujoče rasti, ustvarjanju delovnih mest in trajnostnega razvoja, kar naj bi pripomoglo tudi k odpravljanju glavnih vzrokov nezakonitih migracij.

Slovenija pravkar prenavlja strateški in pravni okvir mednarodnega razvojnega sodelovanja, ki daje poudarek na partnerstvih, tudi z zasebnim sektorjem. V prihodnje bosta v vse vidike slovenskega razvojnega sodelovanja prednostno vključevani dve temi, to sta enakost spolov in varovanje okolja. Med slednje sodi tudi trajnostna energija, so slišali udeleženci konference v Ljubljani.

Na Evropski komisiji pojasnjujejo, da je trajnostna energija eno od ključnih področij, ki je praktično vpeto v vse zunanje instrumente EU.

➤ **Projekt CircEuit – z inovativnim načinom usposabljanja in multidisciplinarnim dostopom do krožnega gospodarstva**

Cilj evropskega projekta CircEuit je usposobiti 15 mladih raziskovalcev na področju krožnega gospodarstva. Evropska komisija ga navaja kot zgled tudi zaradi uporabe inovativnega programa za usposabljanje in interdisciplinarnega pristopa. V konzorciju sodeluje sedem akademskih institucij in dva partnerja iz zasebnega sektorja, ker je treba vzpostavljati partnerstva med akademskimi ustanovami in zasebnimi podjetji. Projekt bo trajal štiri leta, to je do avgusta 2020. EU ga financira s sredstvi iz programa Marie Skłodowska-Curie.

Področja, ki jih mladi raziskovalci raziskujejo, so poslovni modeli oziroma načini za spodbujanje krožne oskrbe, verige uporabnikov in dobavne verige, strategije oblikovanja, ki so potrebne v krožnem gospodarstvu, kakšni bodo makroekonomski učinki krožnega gospodarstva in katere sistemske spremembe so potrebne za njegovo vzpostavitev.

Partnerji v projektu načrtujejo, da bodo po zaključku imeli mrežo mladih dobro izobraženih in usposobljenih ljudi, ki bodo razumeli multidisciplinarno naravo krožnega gospodarstva. Tako bodo lahko na podlagi znanstvenih spoznanj krožno gospodarstvo prenesli v realno poslovno in družbeno okolje.

➤ **Poziv konzorcija projekta BRIGAIID za zbiranje inovativnih rešitev za prilagajanje podnebnim spremembam**

Konzorcij partnerjev v evropskem projektu BRIGAIID do 15. avgusta zbira predloge inovatorjev z rešitvami za prilagajanje podnebnim spremembam. Izbrali bodo od šest do devet inovacij, s katerimi je mogoče lajšati posledice poplav, suše in drugih ekstremnih vremenskih dogodkov. Eden od osnovnih pogojev za izbiro je, da je že narejen prototip, ki ga je mogoče preskusiti na prostem ali v laboratoriju. Konzorcij BRIGAIID pomaga, da izbrane inovacije, ki jih razvijejo raziskovalci, majhna in srednja podjetja, zagonska podjetja, postanejo tehnično močnejše, bolj družbeno sprejemljive in bolj zanimive za vlagatelje.

Konzorcij BRIGAIID ponuja mešanico metod in orodij za ocenjevanje, testiranje in izboljšanje inovacij, izda znak kakovosti, ki zagotavlja uresničljivost inovativnih rešitev. Podpira tudi razvoj poslovnih načrtov in ponuja priložnosti za mreženje z namenom okrepitve povezav med raziskovalci, inovatorji in končnimi porabniki.

Evropska komisija projekt BRIGAIID financira s sredstvi iz programa Obzorje 2020. Konzorcij BRIGAIID ima 24 članov, od tega je 11 majhnih in srednjih podjetij.

➤ **Partnerji evropskega projekta WORTH iščejo nove partnerje s področja ustvarjalnosti in oblikovanja**

Inovativna majhna in srednja podjetja ter zagonska podjetja s področja ustvarjalnosti in oblikovanja lahko do 24. oktobra svoje projekte prijavijo na razpis evropskega projekta WORTH, katerega ambasador je tudi Slovenski center za kreativnost. Izbrani projekti oziroma partnerstva bodo med drugim dobili podporo do 10 tisoč evrov, usposabljanje in svetovanje, sodelovanje na dveh mednarodnih dogodkih, mreženje in čezsektorsko sodelovanje. Vključevati morajo dva ali tri partnerje iz različnih področij iz vsaj dveh držav.

Področja, ki pridejo v poštev, so med drugimi pohišstvo, tekstil, obutev, usnje, nakit, dodatki. Partnerstva, ki jih izberejo, so običajno sestavljena bodisi iz oblikovalcev (samozaposlenih, laboratorijev za oblikovanje in zagonskih podjetij), izdelovalcev (obrnikov in proizvodnih majhnih in srednjih podjetij) in tehnoloških podjetij (inovatorjev, tehnoloških laboratorijev, ponudnikov tehnologij in zagonskih podjetij). Partnerstvo WORTH bo v štirih letih oblikovalo in podprlo 150 partnerstev. S prvim razpisom, ki se je zaključil decembra 2017, je med več kot 100 prijavami izbral 25 partnerstev. Ob prijavi na razpis še ni treba imeti partnerstva, partnerje je mogoče poiskati prek platforme WORTH.

➤ **TURAS je zgledni projekt za pretvorbo stresnih urbanih območij v za življenje prijazna in trajnostna območja**

Članica SBRA Univerza v Ljubljani in Regionalna Razvojna Agencija Ljubljanske Urbane Regije sta bili med dvajsetimi partnerji evropskega projekta TURAS, ki ga Evropska komisija predstavlja kot zgled za pretvorbo urbanih območij, kjer je veliko stresa, v za življenje bolj prijazna in trajnostna območja, kjer lokalne skupnosti lahko zacvetijo. Partnerji v projektu so razvili koncept »zelena dnevna soba«. Na vrhu parkirne hiše v nemškem mestu Ludwigsburg so jo odprli aprila 2014.

Na 140 kvadratnih metrih je 7000 grmov in 128 platan, pod katerimi ljudje lahko sedijo in se srečujejo v senci. Mobilno različico »zelene dnevne sobe« v velikosti zabojnika je mogoče s tovornjakom prepeljati v katero koli ulico v mestu.

Partnerji v projektu so izvedli tudi druge naravne rešitve, ki vključujejo lokalne skupnosti v partnerskih mestih med katerimi je tudi Ljubljana. Ti koncepti vključujejo različna področja, kot so zelene površine, zapuščena urbana območja, krožno gospodarstvo, ekosistemske storitve, onesnaževanje zraka in hrup, trajnostne stavbe, prilagajanje podnebnim spremembam, biotsko raznovrstnost, energetska učinkovitost, ukrepanje v primeru poplav in urbano kmetijstvo.

Rezultat projekta TURAS je tudi ustanovitev podjetja Osmos, ki nadaljuje z izvedbo pobud, ki so jih razvili partnerji v projektu. Osmos želi pomagati lokalnim skupnostim, da razvijejo trajnostno urbano gospodarstvo.

#### **➤ Konferenca o slovenski politiki inovacij (Slovenia Innovation Policy Summit)**

Slovensko gospodarsko in raziskovalno združenje (SBRA) iz Bruslja a in Združenje mestnih občin Slovenije sta v torek, 3. julija, na Gospodarski zbornici Slovenije v Ljubljani organizirala mednarodno konferenco Slovenia Innovation Policy Summit Innovative Business Models in Circular Economy. Konferenca je del projekta HIGHER, ki ga EU financira iz programa Interreg Europe. Cilj tega projekta je izmenjava izkušenj med sodelujočimi regijami v uvajanju inovativnih modelov javno-zasebnih partnerstev, ki bi združile investicije in jih usmerile v področja, identificirana v strategiji pametne specializacije. V projektu sodeluje 9 visoko inovativnih regij z odličnim podpornim okoljem za razvoj inovativnih projektov, poleg Slovenije še Stockholm (Švedska), Barcelona (Španija), Centralna Makedonija (Makedonija), Abruzzo (Italija), Marche (Italija), Norte (Portugalska), Litva in Cambridge (Velika Britanija). Člani se za podrobnejše informacije lahko obrnejo na SBRA.

#### **➤ Evropski parlament bo o septembra odločal o direktivi o avtorskih pravicah v digitalni dobi**

Poslanci Evropskega parlamenta so zavrnili osnutek mandata za pogajanja o novih pravilih za avtorske pravice za digitalno dobo. Stališče Parlamenta v pogajanjih s Svetom EU, ki predstavlja države članice, o novi direktivi o avtorskih pravicah na enotnem digitalnem trgu bo tako predmet razprave, sprememb

in glasovanja na plenarnem zasedanju septembra. Evropska komisija je predlog direktive o avtorskih pravicah na enotnem digitalnem trgu predlagala septembra 2016.

➤ **EU - Japonska univerzitetno sodelovanje**

Concerning the statement of the 1st JPN-EU Ministerial Policy Dialogue on Education on 6th July that I mentioned during today's core meeting, I send you a link of Press Release Database of European Commission; [http://europa.eu/rapid/press-release STATEMENT-18-4365 en.htm](http://europa.eu/rapid/press-release_STATEMENT-18-4365_en.htm)

As you can see in this statement, both parties decided to launch a concrete joint initiative, namely,

A joint call for proposals to co-finance consortia of excellent European and Japanese universities to develop highly integrated master programmes and provide scholarships for talented students from Europe and Japan to study abroad.

The joint call will be published in the framework of the EU Erasmus Mundus Joint Master Degree action and the Japan Inter-University Exchange Project (IUEP).

At EU side, DG EAC (International Cooperation Unit) is in charge of this new joint initiative.

Best regards,

Yukiko YOKOHATA
