#### **Nov portal za iskanje razpisov v okviru evropskih programov**

Evropska komisija je objavila nov portal »Funding & Tender Opportunities Portal«, ki bo nadomestil trenutni »Participant Portal«. Postala bo enotna vstopna točka za iskanje in upravljanje Evropskih razpisov in javnih naročil. Portal vsebuje novo postavitev in je opremljen z izboljšano funkcijo iskanja ključnih besed. Novi portal ponuja vse funkcije, ki so bile na voljo na Participant Portalu. Vsebine na Participant Portalu ob koncu leta ne bodo več dostopne.

Povezava: [Funding & Tenders Opportunities Portal](#)

## RESEARCH PROFESSIONAL

Univerza v Ljubljani plačuje naročnino za Research Professional, informacijsko platformo, ki se ponaša z največjo bazo odprtih razpisov na svetu. V bazo je vključenih več kot 12.000 financerjev, ki dnevno objavijo več kot 350 **razpisov za raziskovanje, razvoj, izobraževanje, raziskovalne infrastrukture, potne stroške, nagrade in druge z raziskovanjem povezane možnosti**. Vsi raziskovalci, študentje in ostali zaposleni Univerze v Ljubljani imate **brezplačno možnost uporabe** omenjene platforme, preko katere si lahko nastavite svoje iskalne kriterije (znanstveno področje, tip dotacije, vir financiranja, rok prijave, višina financiranja itd.) ter iskalno nastavitve shranite. Tako lahko shranite neomejeno število iskanj in si nastavite možnost »ALERT«, s katero boste vsak petek prejeli tedensko svež elektronski izbor razpisov, ki ustrezajo vašim vnaprej nastavljenim iskalnim preferencam.

Spletna stran: <https://www.researchprofessional.com/>

Uporabnik se lahko registrira na naročniško verzijo programa samo iz računalnikov, ki so znotraj univerzitetnega omrežja. Preko gumba »REGISTER« (desno zgoraj) si izberete uporabniško ime in geslo. Če želite uporabljati program izven univerzitetnega računalniškega omrežja, morate biti registrirani, saj se vam pojavi samo možnost »SIGN IN«, ne pa »REGISTER«. V kolikor potrebujete dodatne informacije prosim sporočite na [euprojekti@uni-lj.si](mailto:euprojekti@uni-lj.si).

## PLATFORMA CROWDHELIX

Platforma CROWDHELIX je namenjena povezovanju akademskih institucij in podjetji pri oblikovanju kompetitivnih konzorcijev za pripravo projektov na razpise programa Obzorje 2020. Preko platforme, ki je razdeljena na različna tematska področja (*helixes*), lahko objavite vaše interese po sodelovanju ali pa poiščete že obstoječe iniciative oziroma konzorcije, ki iščejo partnerje z določeno ekspertizo. Trenutno je na platformi objavljenih 444 priložnosti z več kot 2200 uporabniki iz 287 aktivnih organizacij.

Univerza v Ljubljani plačuje letno članarino, zato se lahko raziskovalci in raziskovalke UL registrirajo brezplačno preko povezave: <https://www.crowdhelix.com/signup>

Kratek pregled platforme in njenih funkcionalnosti:

- Iskanje partnerskih ponudb po tematskih področjih
- Povezovanje akademskih institucij s podjetji
- Iskanje drugih priložnosti za sodelovanje
- Objava in iskanje tematskih dogodkov
- Izmenjava mnenj in priložnosti

<b>Proračun:</b>	3.860.000 EUR

## DG RESEARCH AND INNOVATION

<b>Pilot project on research on reduction of CO2 emissions in steel production</b>	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	9.7.2019
<b>Opis:</b>	<p>The Directorate-General for Research and Innovation invites applications for its pilot project on research on reduction of CO2 emissions in steel production. This supports projects that will identify and accelerate the deployment of breakthrough technology routes for almost zero CO2 steel production commercial demonstration by 2030 in Europe. The activities carried out by the pilot project must include:</p> <ul style="list-style-type: none"> <li>• analysis and summary of promising technology routes;</li> </ul>

	<ul style="list-style-type: none"> <li>• identification of investments and of innovative funding mechanisms needed to achieve reductions;</li> <li>• assessment of the impacts of technologies to be implemented, the optimal industrial sites and of the needed investments;</li> <li>• organisation of two interactive workshops with external stakeholders and one public event to present the project's results.</li> </ul> <p>Consortia consisting of at least two legal entities established in at least two different EU member states, may apply. Legal entities in candidate countries and third countries may participate but will not receive funding.</p> <p>The grant is worth approximately €1.25 million over 18 months</p>
<b>Proračun:</b>	EUR 1.247.660

## PARTNERSHIP FOR ADVANCED COMPUTING IN EUROPE

Academia-industry technology transfer projects in high performance computing	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	1.7.2019
<b>Opis:</b>	<p>The Partnership for Advanced Computing in Europe, under the Eurolab4HPC, invites applications for its academia-industry technology transfer projects in high performance computing call. This supports a project which performs a bilateral technology transfer between one academic partner as technology provider and one industry partner as technology receiver.</p> <p>Academic beneficiaries, such as universities and publicly funded research centres, may apply as technology providers. Companies with business activities or physical sites in EU or associated states may apply as technology transfer partners, although the actual collaborating company department does not have to be located itself in these countries. The company partner is expected to either co-fund the transfer project at the university, provide in-kind contributions or invest its own work. Proposals with a cash contribution from the company are preferred.</p> <p>One grant is available, with a minimum total budget of €90,000, of which Eurolab4HPC will provide €45,000. The project must be completed between 1 September 2019 and 30 April 2020.</p>
<b>Proračun:</b>	EUR 45.000

## AQUAEXCEL

Transnational call for access	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	7.6.2019
<b>Opis:</b>	AQUAEXCEL invites proposals for its transnational call for access. This enables access to facilities covering the entire range of aquaculture production systems, environments, scales, fish species and fields of expertise, to research groups

	<p>undertaking experimental trials on a selection of commercially important fish aquaculture species and system types.</p> <p>Researchers from anywhere in the world may apply, however 80 per cent of funded access is reserved for researchers from organisations established in European member states or associated states. Users must collaborate with an AQUAEXCEL infrastructure located in a different country than the one they apply from.</p> <p>Access covers both facility costs and travel and subsistence expenses for up to two people over a maximum of three months.</p>

## EUROPEAN INSTITUTE OF INNOVATION AND TECHNOLOGY

EIT InnoEnergy – pitch competition for energy business camp	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	31.5.2019
<b>Opis:</b>	<p>The European Institute of Innovation and Technology, through the EIT InnoEnergy, together with AXEL – The Energy Accelerator, invites applications for their pitch competition for energy business camp. This provides technology students the opportunity to participate at a summer camp on energy business creation, where they can network with experts and mentors and learn how to develop their ideas into business models. The summer camp will take place between 24 and 28 July 2019 in Karlsruhe, Germany and includes training on energy business creation, storytelling workshops and networking activities with other participants, energy experts and mentors.</p> <p>Present of prospective master’s students and bachelor’s students studying a technical or energy related programme may apply.</p> <p>The prize covers registration fee worth €2,000 as well as accommodation and meals.</p>
<b>Proračun:</b>	EUR

EIT Digital – digital challenge	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	14.6.2019
<b>Opis:</b>	<p>The European Institute of Innovation and Technology, through EIT Digital, invites applications for its digital challenge. This recognises pan-European innovations and aims to support digital startups that are focused on fast growth of their business in Europe and worldwide. Submissions should be in one of the following categories:</p> <ul style="list-style-type: none"> <li>•digital industry;</li> <li>•digital cities;</li> <li>•digital wellbeing;</li> <li>•digital technology;</li> <li>•digital finance.</li> </ul>

	<p>Applications are welcome from growth-stage technology companies which had revenues of at least €300,000 in 2018 or €2,000,000 in equity investment, is a maximum of 10 years old and is based in an EU member state.</p> <p>The best team in each category will receive a package worth €100,000. This includes a cash prize of €50,000 and access to the EIT digital accelerator worth up to €50,000 as well as media exposure and the opportunity to work with business developers and finance experts. The runner up company in each category receives 12 months in the EIT digital accelerator.</p>
<b>Proračun:</b>	100.000 EUR

## EUROPEAN DEFENCE AGENCY

<b>Innovative defence applications innovation prize</b>	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	30.8.2019
<b>Opis:</b>	<p>The European Defence Agency invites applications for its innovative defence applications innovation prize. This recognises innovative defence-related ideas in artificial intelligence, that may be implemented through a collaborative research and technology effort within an EU defence framework. Projects may cover the following topics:</p> <ul style="list-style-type: none"> <li>• supporting decision-making tools in command and control;</li> <li>• improve intelligence gathering and processing of information to improve the common operational picture;</li> <li>• supporting the autonomy of unmanned systems;</li> <li>• demonstrating the efficient use of AI in combination with 5G and internet of things.</li> </ul> <p>Legal and natural persons based in EDA participating member states may apply.</p> <p>The award is worth €30,000. In addition, accommodation and travel expenses for up to two representatives of the winner to attend the ceremony will be covered.</p>
<b>Proračun:</b>	EUR 30.000

## EUROPEAN PATENT ORGANISATION

<b>Academic research programme grants</b>	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	12.6.2019
<b>Opis:</b>	<p>The European Patent Organisation invites applications for its academic research programme grants. These support research on the role of patents in the European economy to inform policymakers and facilitate business decisions. The thematic areas are:</p> <ul style="list-style-type: none"> <li>• measuring the impact of patents on innovation;</li> </ul>

	<ul style="list-style-type: none"> <li>•the role of patents in technology transfer, commercialisation or investment decisions;</li> <li>•patents services and intermediaries;</li> <li>•patents and disruptive technologies;</li> <li>•impact of public policy and the regulatory landscape on the use of patents across Europe;</li> <li>•patens and climate change mitigation technologies;</li> <li>•advances use of PATSTAT, patent searching and analytics.</li> </ul> <p>Research institutes based in a member state of the European Patent Organisation may apply. In exceptional cases individuals who are nationals of one of the EPO member states, may also apply. In the case of cross-organisational cooperation, the individual or team leading the project must be based in a member state. Interdisciplinary projects will be considered.</p> <p>The budget is €300,000. Grants are worth between €20,000 and €100,000 each. Assistance on a case-by-case basis, for example by sharing internal expertise or helping to organise project-specific workshops, may be offered.</p>
<b>Proračun:</b>	300.000 EUR

#### EUROPEAN INSTITUTE FOR GENDER EQUALITY

<b>Gender equality index in the EU member states – policy context and statistical analysis</b>	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	11.6.2019
<b>Opis:</b>	<p>The European Institute for Gender Equality invites tenders for gender equality index in the EU member states – policy context and statistical analysis. The tenderer will support the monitoring and assessment of performance in gender equality in the EU and member states by providing the evidence on the major achievements and set-backs as measured by the gender equality index. The contract is divided into two lots:</p> <ul style="list-style-type: none"> <li>•lot 1 country analysis of the gender equality index – related data and policy developments;</li> <li>•lot 2 statistical analysis related to the gender equality index in context.</li> </ul> <p>Legal and natural persons based in EU member states may submit bids.</p> <p>The contract is worth €520,000 over 12 months.</p>
<b>Proračun:</b>	520.000 EUR

#### CEDEFOP

<b>Apprenticeship symposium grants</b>	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	3.6.2019
<b>Opis:</b>	Cedefop invites abstracts for its apprenticeship symposium grants. These support participation in the next steps for apprenticeship symposium, to be held in Paris

	<p>on 7 October 2019. The symposium aims to bring together policy makers, practitioners and researchers from around the world to consider new research exploring the next steps for apprenticeship provision. Contributions are welcomed in the following areas:</p> <ul style="list-style-type: none"> <li>• socio-demographic and socioeconomic long-term structural trends;</li> <li>• new technologies and labour market changes;</li> <li>• new forms of work organisation;</li> <li>• trends in education and training.</li> </ul> <p>Researchers, policy officials, vocational education and training providers, VET teachers and employers may submit abstracts.</p> <p>Travel and accommodation costs for authors of selected papers will be covered if needed.</p>
<b>Proračun:</b>	10.000 EUR

#### CREATIVE EUROPE 2014 – 2020

<b>Culture Sub-Programme 2019 - Bridging culture and audiovisual content through digital</b>	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	20.6.2019
<b>Opis:</b>	<p>Projects including an audiovisual and new digital technology aspect to be implemented in at least one of the following areas: museums, live performance and/or cultural heritage.</p> <p>Support will be given to projects:</p> <ul style="list-style-type: none"> <li>• featuring new forms of creation at the cross roads between different cultural and creative sectors, including the audiovisual sector, and through the use of innovative technologies, including virtual reality, or</li> <li>• fostering innovative cross sectoral approaches and tools to facilitate access, distribution, promotion and/or monetisation of culture and creativity, including cultural heritage.</li> </ul>
<b>Proračun:</b>	1.750.000 EUR

#### EUROPEAN GLOBAL NAVIGATION SATELLITE SYSTEM AGENCY – GSA

<b>Copernicus and Galileo prizes for 2019-2021</b>	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	15.6.2019
<b>Opis:</b>	The beneficiary/ies will create and co-finance a prize awarding mechanism/scheme by public or private organizations that reward the development of innovative applications developed by entrepreneurs and based on Copernicus, on the EU Global Navigation Satellite Systems (GNSS) technologies (EGNOS/GALILEO) or a combination of both technologies as building components.

	<p>The following types of activities are eligible under this call for proposals:</p> <ul style="list-style-type: none"> <li>• Overall management, organization of the award ceremonies</li> <li>• Communication</li> <li>• Mobilizing and co-financing of prizes</li> <li>• Reporting</li> </ul>
<b>Proračun:</b>	2.306.000 EUR

## UNESCO

<b>Green Chemistry for Life Grant Programme: calls for applications</b>	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	15.8.2019
<b>Opis:</b>	<p><b>Green Chemistry research grants for young scientists</b></p> <p>The grant programme aims to promote the implementation of innovative research projects in green chemistry by young scientists that respect the 12 principles of green chemistry. Young scientists aged with a PhD degree (or equivalent) in chemistry or its allied areas are invited to compete; the age limit is 39. Successful projects will be selected by an international scientific jury. Grants will be up to US\$30,000 and should be awarded for research that may be completed in one year.</p> <p><b>Green Chemistry special grants for research projects on phosphogypsum</b></p> <p>This special call for applications is opened by PhosAgro, UNESCO and IUPAC in response to societal and environmental needs. This special grant will be awarded to a project in green chemistry, by a young scientists, focusing on innovations in the processing and utilization of phosphogypsum, a mineral technogenic waste material produced in great quantities. The age limit is 39.</p>

## CENTRAL EUROPEAN INITIATIVE

<b>CEI Know-how Exchange Programme</b>	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	1.7.2019
<b>Opis:</b>	<p>Launched in 2004, the KEP is a development instrument aimed at supporting transfer of experience and expertise from organisations in the EU to peers in the non-EU countries within the CEI region. The rationale of the Programme is based on the assumption that the economic development in non-EU countries can be strengthened through the transfer of best practices and benchmarks already in place in more advanced economies. These transfers could have an invaluable impact by ensuring social cohesion and economic dynamism in the region. By co-financing capacity building and technical assistance projects, the KEP offers grants to institutions willing to share their experience with their partners in the non-EU CEI Member States, thus helping non-members to advance on their path towards EU standards and policies. The KEP focuses on areas of intervention where EU CEI countries demonstrate strong-rooted experience, and where beneficiary states exhibit the strongest need for assistance.</p>

Proračun:	290.000 EUR
-----------	-------------

## INTERREG MEDITERRANEAN

SECOND CALL FOR HORIZONTAL PROJECTS	
Več informacij:	<a href="#">Spletna stran razpisa</a>
Rok prijave:	27.6.2019
Opis:	<p>The objective of the 2nd call for Horizontal Projects (HPs) targets an Interreg MED 2 nd generation of HPs explicitly focused on “capitalisation”, a fundamental and “key cooperation principle” of the Interreg MED Programme “Strategic Framework”. Within this call, the capitalisation principle entails a very precise content, composed of 'transfer', 'mainstreaming' and 'strategic liaising' activities (see also below, in the activities related paragraph). These fundamental principles represent the identity of the Interreg MED Programme and are coherent with the promotion of development, of good governance and supported by the European Union Cohesion Policy 1 . The aim is to move from a networking community of projects into a vibrant partnership, committed to excellence for a sound and measurable contribution into the Interreg MED Programme overall objective and to the corresponding target values (indicators; see below the indicators' table).</p> <p>For this call, a restriction to the eligibility of Lead Partners apply: only partners currently participating in ongoing Horizontal Projects can apply as LPs regardless the thematic community.</p> <p>To ensure a high geographical coverage, Lead Partners must include at least one partner coming from an, Interreg MED country not included in the Horizontal project belonging to the 1st call for Horizontal projects, under the specific objective (or sub-topic for Axis 1) in which they apply for.</p>
Proračun:	12.500.000 EUR

## TENDERS

Članice se na razpise “tenders” prijavljajo samostojno, saj se izvajajo po naročilu in so v celoti financirani na podlagi zbiranja ponudb oziroma javnih naročil

TENDERS: Advancing administrative data collection on intimate partner violence	
Več informacij:	<a href="#">Spletna stran razpisa</a>
Rok prijave:	6.6.2019
Opis:	<p>The European Institute for Gender Equality invites tenders to support the advancement of administrative data collection on intimate partner violence. Tenderers will assist EU member states in implementing EU-wide indicators on administrative data collection on intimate partner violence, rape and femicide and developing a classification system on femicide. The specific objectives are to:</p> <ul style="list-style-type: none"> <li>• assess the progress made at national level in improving data availability in order to provide uniform data on intimate partner violence and enhance EU data comparability;</li> </ul>

	<ul style="list-style-type: none"> <li>•improve data collection on gender-related killings of women and girls by developing a classification system.</li> </ul> <p>The contract is worth €200,000 for 11 months.</p>
<b>Proračun:</b>	200.000 EUR

<b>TENDERS: Carrying capacity methodology for tourism</b>	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	3.6.2019
<b>Opis:</b>	<p>The European Spatial Planning Observation Network invites tenders to support carrying capacity methodology for tourism. Tenderers will provide an empirical foundation for destinations and help local leaders assess their situation and identify vulnerabilities in relation to sustainable tourism in their respective territories.</p> <p>The contract is worth €275,000 for one year.</p>
<b>Proračun:</b>	275.000 EUR

<b>TENDERS: Study on invasive alien species – development of risk assessments to tackle priority species and enhance prevention</b>	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	22.5.2019
<b>Opis:</b>	<p>The Directorate-General for the Environment invites tenders for a study on invasive alien species – development of risk assessments to tackle priority species and enhance prevention. The tenderer will revise risk assessments of invasive alien species, develop a list of species to be assessed as well as prepare the risk assessments and risk management notes.</p> <p>Legal or natural persons based in EU member states or authorised countries under the WTO procurement agreement may submit bids.</p> <p>The contract is worth €810,000 over 36 months.</p>
<b>Proračun:</b>	810.000 EUR

<b>TENDERS: Study on barriers to the use of construction products in construction services</b>	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	26.6.2019
<b>Opis:</b>	<p>The Executive Agency for Small and Medium-sized Enterprises invites tenders for a study on barriers to the use of construction products on construction services. The tenderer will identify and frame under applicable EU law some of the most relevant national law barriers to the provision of construction services linked to the use of construction materials, as a source of evidence for the development of future internal market policy for construction services.</p> <p>Legal and natural persons based in EU member states may submit bids.</p> <p>The contract is worth €600,000 over 18 months.</p>
<b>Proračun:</b>	600.000 EUR

<b>TENDERS: European monitoring of biodiversity in agricultural landscapes</b>	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Rok prijave:</b>	5.6.2019
<b>Opis:</b>	<p>The Directorate-General for the Environment invites tenders for European monitoring of biodiversity in agricultural landscapes. The tenderer will support EU efforts in strengthening the capacity for collecting ground data on biodiversity in agricultural landscapes. The result of the contract will support better evaluation of the impacts of EU policies on biodiversity and their contribution towards halting its loss.</p> <p>Legal or natural persons based in EU states or authorised countries under the WTO procurement agreement may submit bids.</p> <p>The contract is worth €500,000 over 15 months.</p>
<b>Proračun:</b>	500.000 EUR

## NAJAVA RAZPISA

### INTERREG 2

<b>COMING SOON: Smart cities innovation framework implementation call</b>	
<b>Več informacij:</b>	<a href="#">Spletna stran razpisa</a>
<b>Opis:</b>	<p>The INTERREG 2 Seas Mers Zeeën invites applications for its smart cities innovation framework implementation call. This supports start-ups, companies and students in creating innovative products and services in response to challenges for cities in the 2 seas region in the fields of mobility, environment and energy. The specific challenges are:</p> <ul style="list-style-type: none"> <li>•cycling;</li> <li>•optimise use of city centre;</li> <li>•de-icing prioritisation;</li> <li>•environmental maintenance;</li> <li>•air quality;</li> <li>•water optimisation;</li> <li>•efficient buildings.</li> </ul> <p>Successful applicants can prototype their solution in one of the partner cities Mechelen and Bruges in Belgium, Delft in the Netherlands or Saint-Quentin in France.</p> <p>Start-ups, students and companies that are part of a legal entity based in EU member states or associated countries may apply. Grants are given to single entities, not to consortia or multiple entities.</p> <p>Grants are worth up to €10,000 to support pilot, proof of concept, minimum viable product or other solution development goal. Additionally, grants include</p>

	six months of business accelerator powered by Faubourg Numerique, Agoria and Cambridge CleanTech, as well as access to hardware and equipment such as sensors, technology and data sets and data science, open data and business skills trainings.
<b>Proračun:</b>	10.000 EUR

## PONUDBA ZA PARTNERSTVA

### HORIZON 2020

Sodelovanje pri pripravi projektne predloga na razpise Obzorja 2020 s področja varnosti.

Več informacij: <https://www.ideal-ist.eu/partner-search>

### EUTOPIA

Paris Seine Institute of Advanced Studies has launched a new scheme, the EUTOPIA Visiting Fellowships, to facilitate the hosting of EUTOPIA researchers wishing to collaborate with Paris Seine faculty.

Relevant details can be found here : <https://iea.u-cergy.fr/en/funding-and-calls-for-projects/paris-seine-eutopia-international-fellowships.html>.

### MARIE SKLODOWSKA-CURIE ACTION – INDIVIDUAL FELLOWSHIP (MSCA-IF)

[Vrije Universiteit Brussel \(VUB\)](#) is actively recruiting experienced researchers for the prestigious [Marie Sklodowska-Curie Action – Individual Fellowship \(MSCA-IF\)](#) which is part of the European Commission's Horizon 2020 funding scheme.

The MSCA-IF funding scheme is geared to promising experienced researchers (ER). Please note: an ER denotes a researcher with a PhD degree, or at least 4 years of full-time equivalent research experience (unrelated to PhD studies).

In collaboration with our research staff, we have created a repository of topics to inspire potential applicants, and to ensure a two-way knowledge transfer between applicant and host institution (a requirement for the proposal). The topics of the repository are thought to be seen as grounds for discussion and further evolution into a project idea together with the respective VUB supervisor. The applicant will have to write a proposal to further expound his or her idea regarding e.g. innovation, training and stakeholders.

The repository and instructions in how to proceed can be found here: <https://www.vub.ac.be/en/european-liaison-office#apply-msca-if>

## NOVICE

- **Komisarka za konkurenčnost predstavila pogoje za raziskovalno-industrijska partnerstva**

Komisarka EU za konkurenco Margarethe Vestager je pojasnila nekatere pogoje, ki jih morajo izpolnjevati podjetja, da bi pridobili odobritev Komisije za pomembno novo vrsto javno-zasebnega partnerstva za raziskave in razvoj.

Komisarka Vestagerjeva je na srečanju z novinarji 3. maja dejala, da je novi razred projektov raziskav in razvoja, imenovanih pomembni projekti skupnega evropskega interesa (IPCEI), dovoljen, če med drugim obravnavajo potrebo, ki jo trg ne more izpolniti sam in ne nepošteno škoduje konkurenci.

Evropska komisija je leta 2014 sprejela pravila o IPCEI, vendar je prvi projekt IPCEI za raziskave in razvoj - projekt mikroelektronike v vrednosti 1,7 milijarde EUR, ki je vključeval Francijo, Nemčijo, Združeno kraljestvo in Italijo – odobrila šele decembra 2018. Z novim IPCEI za tehnologije baterij, ki jih zdaj obravnavajo države, vključno s Poljsko in Belgijo, merila za prvo zagotavljajo vpogled v to, kako se bodo o takšnih primerih odločali v prihodnosti.

Praviloma stroga pravila EU o državni pomoči državam članicam otežujejo subvencioniranje raziskav v zasebnem sektorju, da ne bi podjetju ali nacionalnemu gospodarstvu dala neupravičene prednosti pred drugim. Vendar okvir IPCEI omogoča več državam članicam in podjetjem, da združijo moči in poiščejo izjemo, ki jo mora odobriti komisar za konkurenco. Do odločitve Vestagerja konec lanskega leta ni bil nikoli odobren noben tak raziskovalni projekt.

IPCEI se razlikujejo od številnih vrst javno-zasebnega raziskovalnega partnerstva, odobrenega v okviru raziskovalnega programa Obzorje 2020, ker jih EU neposredno ne organizira ali financira, temveč države članice.

---

### ➤ **Nova organizacija generalnega direktorata za raziskave in inovacije**

Komisarji EU so 30. aprila potrdili eksperimentalno novo „matrično“ organizacijsko strukturo za generalni direktorat za raziskave in inovacije, ki namerava povečati sodelovanje osebja, generalnih direktorats in s tem preseči birokratske ovire.

„Gre za vzpostavitev okretne, sodobne, medsektorske uprave, ki lahko resnično oblikuje politike in projekte drugače,“ je povedal generalni direktor DG RTD, Jean-Eric Paquet.

### ➤ **Razpis za člane odborov za določitev misij v Horizon Europe**

V kratkem bo objavljen razpis Evropske komisije za izbor članov za ekspertne skupine Evropske komisije za določitev prioritet v prihodnjih misijah – člane t.i. mission boards. Komisija bo izbrala do 15 strokovnjakov za pet odborov za določitev misij na petih tematskih področjih misij:

- mission board for adaptation to climate change including societal transformation

- mission board for cancer
- mission board for healthy oceans, seas, coastal and inland waters
- mission board for climate-neutral and smart cities
- mission board for soil health and food

Komisija pričakuje v odborih za misije visoko usposobljenje posameznike s širokim naborom znanj. Odbori za izbor misij bodo potekali v dveh fazah. V prvi fazi bo glavna naloga strokovnjakov v odborih za misije svetovanje Evroski komisiji o implementaciji in snovanju ene ali več misij, o ciljih, kazalnikih in časovnicah za vsako od petih misij. Člani odborov bodo sodelovali z državami članicami, Evropskim parlamentom, relevantnimi deležniki in širšo javnostjo. Evropska komisija bo naredila končen izbor misij.

Ko bodo misije izbrane in bo določen tudi proračun programa Horizon Europe, bo sledila druga faza odborov za misije. Odbori za misije bodo na novo sestavljeni in bodo vključevali strokovnjake za posamezna tematska področja misij. Novi odbori za misije bodo svetovali Evropski komisiji o konkretnih aktivnostih v posameznih misijah in pripravi konkretnih razpisov za izvajanje misij v okviru programa Obzorje Evropa.

#### ➤ **Prvi rezultati pobude za pomoč državam in regijam v tranziciji, v kateri sodeluje Slovenija**

Evropska komisija je predstavila prve rezultate pobude za pomoč 10 regijam EU in dvema državam v industrijski tranziciji, med katerima je tudi Slovenija. Slovenija bo v okviru pobude ob podpori EU vzpostavila spletno in fizično sodelovalno platformo za razvoj slovenske industrije 4.0, ki bo vključevala področja, kot so kibernetika, varnost, računalništvo v oblaku, velepodatki in robotika. Člani lahko na SBRA dobijo podrobnejše informacije o pobudi za pomoč regijam in državam v industrijski tranziciji in sodelovanju Slovenije v njej.

V okviru pobude, ki se je začela pred enim letom, je bilo vzpostavljenih 12 pilotnih shem – po ena na regijo oziroma na državo. Projekti naj bi pripomogli k lažjemu premoščanju posebnih ovir v zvezi z industrijsko tranzicijo. Vsaki shemi bo namenjenih 300.000 evrov pomoči. Komisija poziva prejemnike, naj dosedanje izkušnje ponovijo tudi pri izkoriščanju kohezijske podpore.

Regije oziroma države članice, ki sodelujejo v pobudi, imajo veliko skupnega. Vse so v preteklih 15 letih izgubile delovna mesta v industriji, vendar imajo adute, na katerih lahko gradijo, in pripravljenost za preoblikovanje svojega gospodarstva.

Poleg Slovenije kot država v pobudi sodeluje še Litva, kot regije pa sodelujejo Kantabrija (Španija), Centre-Val de Loire, Grand Est in Hauts-de-France (vse tri Francija), Severna in Vzhodna Finska, Širši Manchester (Združeno kraljestvo), Severna Srednja Švedska, Piemont (Italija); Saška (Nemčija) in Valonija (Belgija).

#### **➤ PEGASUS je zgledni evropski projekt za razvoj podeželja, v katerem je sodelovala Biotehniška fakulteta Univerze v Ljubljani**

Biotehniška fakulteta Univerze v Ljubljani, ki je članica SBRA, je sodelovala v evropskem projektu PEGASUS v okviru katerega so partnerji pripravili priporočila za spodbujanje deležnikov na lokalni ravni, da preučijo okoljske, družbene in gospodarske dejavnike pri upravljanju z zemljo na podeželju. Evropska komisija projekt PEGASUS predstavlja kot zgled, ker so raziskovalci, ki so v njem sodelovali, razvili nove poti, s katerimi je mogoče zagotoviti, da bo kmetijstvo in gozdarstvo v prihodnje lahko bolj trajnostno.

Partnerji v konzorciju projekta PEGASUS ugotavljajo, da morajo deležniki na terenu dobro razumeti politike za razvoj podeželja, da so te lahko uspešne. Zaradi tega v priporočilih, ki so jih pripravili v okviru projekta, posebej izpostavljajo vključevanje deležnikov na lokalni ravni. Poleg tega morajo biti politike zastavljene prožno, da jih je mogoče prilagajati specifičnim lokalnim razmeram.

V projektu so sodelovali raziskovalci iz različnih držav in različnih znanstvenih disciplin. Pobude so testirali v desetih regijah. Z vključevanjem deležnikov na terenu v pripravo priporočil so zagotovili, da ta temeljijo na realnih okoliščinah in upoštevajo kulturne razlike v različnih delih Evrope.

#### **➤ Prek projekta HaS-DARIAH je bila vzpostavljena digitalna infrastruktura za raziskave s področja kulture in humanistike**

Po zaslugi evropskega projekta HaS-DARIAH imajo raziskovalci s področja umetnosti in humanistike za svoje delo in sodelovanje na voljo digitalno infrastrukturo. Muzikolog s pomočjo te infrastrukture lahko analizira digitalne posnetke, arheolog lahko digitalno poustvari stare stavbe, zgodovinar lahko s pomočjo digitalnih zapisov raziskuje spremembe poimenovanj ulic, med primeri uporabe rezultatov projekta HaS-DARIAH izpostavlja Evropska komisija. Projekt je nadgradnja evropske digitalne raziskovalne infrastrukture za umetnost in humanistiko (DARIAH).

Projekt HaS-DARIAH je omogočil, da infrastrukturo DARIAH zdaj lahko uporabljajo min imajo dostop vsi raziskovalci s področja umetnosti in humanistike. Projekt je prek sklopa orodij podprl odprto znanost, na primer s podporo projektu Biblissima za zbiranje in obdelavo podatkov o kroženju besedil, zgodovini knjižnic ter prenosu znanja v Evropi od 8. do 18. stoletja.

Raziskovalci, ki so sodelovali v projektu HaS-DARIAH, so razvili tudi več regionalnih vozlišč, ki omogočajo raziskovalcem sosednjih držav, da prek njih razpravljajo o skupnih temah, oblikujejo regionalne konzorcije. Evropska komisija med njegovimi dosežki izpostavlja tudi povezave z raziskovalno infrastrukturo z drugih področij (CLARIN, OPERAS, CESSDA).

#### **➤ V tem tednu bo objavljen nov razpis EU s področja kibernetike varnosti**

Evropska komisija napoveduje, da bo v torek, 14. maja, objavila nov razpis s področja kibernetike varnosti, prek katerega bo na voljo 10 milijonov evrov. Člani lahko dobijo podrobnejše informacije in pomoč na SBRA. Na podlagi lanskega razpisa je Evropska komisija za sofinanciranje izbrala 33 projektov.
