Obvestilo Evropske komisije upravičencem in koordinatorjem Obzorje 2020 projektov

Komisija se v celoti zaveda, da lahko izbruh virusa Corone v EU in drugod vpliva na izvajanje tekočih projektov Obzorja 2020. Na primer, trenutna situacija lahko upravičencem prepreči izpolnjevanje svojih obveznosti v okviru projekta ali opravljanja dela na območju, ki ga je prizadel virus. Upravičenci lahko tudi odpovejo sestanke zaradi nerazpoložljivosti ključnega osebja ali ker se večina udeležencev ne more udeležiti.

Člen 51 Vzorčnega sporazuma o dodelitvi sredstev H2020 – Grant agreement (GA) (H2020 MGA) določa splošni okvir in pogoje, v katerih je mogoče uporabiti klavzulo o višji sili. Splošno pravilo v skladu s H2020 bo v primeru višje sile stranko oprostilo izpolnjevanja svojih obveznosti (tj. To ne bo kršitev obveznosti iz GA in noben od škodljivih ukrepov za kršitev ne bo uporabljen). Stroški bodo upravičeni, če izpolnjujejo splošne pogoje za upravičenost, kot velja za vse druge stroške, nastale v okviru ukrepa. Če pa višja sila povzroči dodatne stroške za izvedbo ukrepa, jih bo običajno nosil upravičenec.

Če pride do take situacije, morajo upravičenci takoj obvestiti Komisijo ali agencijo, ki bo za vsak primer posebej preučila morebitno uporabo pravil o višji sili v smislu člena 51 MGA H2020.

Primer: Upravičenci se ne morejo udeležiti sestankov ali dogodkov, povezanih z ukrepanjem, zaradi nedavnega stika z nekom, ki trpi zaradi virusa, ali zaradi svoje prisotnosti na območju, za katerega velja, da je ogroženo. Stroški potovanja ali nastanitve, ki jih ni bilo mogoče odpovedati in jih ne povrnejo iz drugih virov, bi bili upravičeni (pod pogojem, da je izpolnjen pogoj za upravičenost do stroškov).

Will the deadlines for Horizon 2020 calls be extended related to the COVID-19 outbreak?

The recent escalation of restrictions related to the COVID-19 outbreak may hamper applicants' ability to prepare and finalise high-quality proposals. For this reason, for **Horizon 2020 calls with original deadlines between now and 15 April, extensions will be applied**. The precise new deadlines for each call and topic will be published on the call and topic pages on the Funding and Tenders Portal.

For the following two calls, no extension of deadline/cutoff date will apply:

IMI2-2020-21-01

EIC-SMEInst-2018-2020

In all cases, potential applicants are advised to prepare themselves as necessary, especially by establishing effective communication links for remote collaborative work, also anticipating possible further restrictions in the coming weeks.

Nov portal za iskanje razpisov v okviru evropskih programov

Evropska komisija je objavila nov portal »Funding & Tender Opportunities Portal«, ki bo nadomestil trenutni »Participant Portal«. Postala bo enotna vstopna točka za iskanje in upravljanje Evropskih razpisov in javnih naročil. Portal vsebuje novo postavitev in je opremljen z izboljšano funkcijo iskanja ključnih besed. Novi portal ponuja vse funkcije, ki so bile na voljo na Participant Portalu. Vsebine na Participant Portalu ob koncu leta ne bodo več dostopne.

➤ **Države članice EU so dosegle dogovor o strateškem inovacijskem programu EIT za obdobje 2021-2027**

Države članice EU so v okviru Sveta EU dosegle dogovor o prihodnjem strateškem inovacijskem programu Evropskega inštituta za inovacije in tehnologijo (EIT). Strateški inovacijski program skupaj z uredbo EIT, ki zagotavlja pravno podlago za EIT, dopolnjuje zakonodajni okvir za delovanje EIT v obdobju 2021–2027. V njem so določena prednostna področja in strategija EIT za obdobje 2021–2027:

opredeljeni so cilji EIT, ključni ukrepi, način delovanja, pričakovani rezultati in potrebni viri. Člani lahko dobijo dodatne informacije na SBRA.

Besedilo, za katerega so se dogovorile države članice, po pojasnilih Sveta EU med drugim jasneje določa področje uporabe novega pilotnega projekta, ki bo spodbujal razvoj podjetniških in inovacijskih zmogljivosti v visokošolskih zavodih. Prav tako določa merila za upravičenost in proračunska sredstva za regionalno inovacijsko shemo, vzpostavlja poenostavljen model financiranja skupnosti znanja in inovacij, ki temelji na načelu financiranja na podlagi uspešnosti, pojasnjuje razmerje med EIT in skupnostmi znanja in inovacij po prenehanju okvirnega sporazuma o partnerstvu.

Besedilo po pojasnilih Sveta EU prav tako določa poenostavljen postopek, v skladu s katerim bi leta 2026 lahko ustanovili novo skupnost znanja in inovacij, in vsebuje seznam možnih prednostnih področij. Strateški inovacijski program zagotavlja skladnost EIT s programom Obzorje Evropa, ki je prihodnji okvirni program EU za raziskave in inovacije za obdobje 2021–2027, poleg tega pa naj bi spodbujal sinergije z drugimi programi EU.

Svet EU se bo zdaj poskusil dogovoriti z Evropskim parlamentom, da bi prihodnji strateški inovacijski program Evropskega inštituta za inovacije in tehnologijo (EIT) sprejeli v prvi obravnavi.

➤ **Evropska komisija je predstavila strategijo za pomoč industriji pri prehodu na podnebno nevtralnost in na digitalnem področju**

Evropska komisija je predstavila strategijo za pomoč evropski industriji pri prehodu na podnebno nevtralnost in na digitalnem področju. Strategija vsebuje ukrepe za podporo akterjem v evropski industriji, vključno z velikimi in malimi podjetji, inovativnimi zagonskimi podjetji, raziskovalnimi centri, ponudniki storitev, dobavitelji in socialnimi partnerji. Namen posebne strategije za mala in srednja podjetja je zmanjšati birokracijo in pomagati evropskim malim in srednjim podjetjem pri poslovanju na enotnem trgu in zunaj njega, dostopu do financiranja ter utiranju poti pri prehodu na digitalno in zeleno Evropo.

Strategija za pomoč evropski industriji pri dvojnemu prehodu določa ključne dejavnike industrijske preobrazbe Evrope in predlaga sklop prihodnjih ukrepov. Med njimi so akcijski načrt za intelektualno lastnino, tekoči pregled pravil EU o konkurenci, ukrepe za posodobitev in razogljičenje energijsko intenzivnih industrij, podporo industrijam trajnostne in pametne mobilnosti, spodbujanje energijske učinkovitosti ter zagotavljanje zadostne in stalne oskrbe z nizkoogljično energijo po konkurenčnih cenah.

V strategiji za mala in srednja podjetja Evropska komisija obljublja, da bo za krepitev zmogljivosti malih in srednjih podjetij posodobila evropsko podjetniško mrežo s posebnimi svetovalci za trajnost. Prav tako bo razširila vozlišča za digitalne inovacije v vseh evropskih regijah, da bi malim in srednjim podjetjem omogočila vključevanje digitalnih inovacij.

➤ **Evropska komisija je sprejela nov akcijski načrt za krožno gospodarstvo**

Evropska komisija je na podlagi Evropskega zelenega dogovora sprejela nov akcijski načrt za krožno gospodarstvo, ki je del industrijske strategije EU. V njem so navedene zakonske in nezakonske pobude, ki pokrivajo celotni življenjski cikel izdelkov od oblikovanja in proizvodnje do potrošnje, popravila in novične uporabe, recikliranja in vračanja virov nazaj v gospodarstvo. Cilja akcijskega načrta sta, da trajnostni izdelki postanejo pravilo v EU in zmanjšati količino odpadkov.

Evropska komisija je v akcijskem načrtu napovedala, da bo predložila zakonodajne predloge s katerimi bi zagotovila, da bo uporaba za enkratno uporabo omejena, bo prepovedano uničenje neprodanega nepokvarljivega blaga.

V novem načrtu je prav tako predvideno, da bodo potrošniki imeli dostop do zanesljivih informacij o vprašanih, kot sta popravljivost in trajnost izdelkov, da bi lahko na njihovi osnovi lažje sprejemali okoljsko trajnostne odločitve. Potrošniki naj bi lahko uveljavljali pravico do popravila.

Kot sektorji, ki uporabljajo največ virov in kjer so možnosti za krožnost velike, so v akcijskem načrtu navedeni elektronika in IKT, baterije in vozila, embalaža, plastika, tekstilni izdelki, gradbeništvo, stavbe in hrana.
