Zadeva: EUvsVirus Matchathon 22-23 maj 2020 - povežite se z inovativnimi rešitvami
Priloge: Specific needs to be matched with Academia.pdf

Spoštovani,

spodaj vam posredujemo informacijo o **EUvsVirus Matchatonu**, ki bo potekal 22.-23. maja. Do njihove spletne strani lahko dostopate [tukaj](#).

V priponki vam posredujemo tudi **tabelo s projekti**, ki še iščejo partnerje za povezovanje v projektno skupino na temo COVID-19.

S spoštovanjem,

Univerza v Ljubljani

Subject: EUvsVirus Matchathon 22-23 maj 2020 - povežite se z inovativnimi rešitvami

Pozdravljeni,

Evropska komisija in žirija strokovnjakov so na aprilskem **Hackatonu EUvsVirus** izbrali 120 zmagovalnih skupin in njihove inovativne rešitve. Te inovativne rešitve in projekte želi Evropska komisija sedaj povezati z elitnimi univerzami, podjetji, vlagatelji, pospeševalci, skladi tveganega kapitala in javnimi organi. Zato pozivajo vse naštete, da se udeležijo spletnega t.i. EUvsVirus Matchathona, kjer lahko univerze, javni organi, financerji in ostali izrazijo zanimanje za 120 predlaganih rešitev povezanih s COVID-19. [Matchaton](#) bo potekal od 22.-25. maja, danes pa že poteka t.i. demo dan.

Vsi zmagovalni predlogi, ki prihajajo večinoma od start up skupin, so na spletni strani <https://www.euvsvirus.org/results/>

V prilogi pošiljamo tudi tabelo, kjer so navedeni projekti, ki še potrebujejo akademske partnerje. V kolikor se van zdi kakšna rešitev zanimiva in bi se želeli povezati s projektno skupino, lahko storite to preko prej navedene spletne strani oz. preko povezav v priloženem dokumentu.

Lep pozdrav,

Slovenian Business & Research Association

Subject: NUJNO: Fwd: [core] FW: Specific needs of winning projects

Tole je zanimivo, na katerih področjih potrebujejo partnerje. Sicer, če prav razumem, s področja univerz.
Glej priponko spodaj.
Predlagam, da pošljemo naprej.
Maja, Viktor.

Dear all,

This is a document with the needs for partnership of the projects selected during the Eu vs. Virus Hackathon. If you think you would like to get involved with any of these projects, please contact the coordinators of the matchmaking process directly.

Regards,
Alex

Subject: Specific needs of winning projects

Dear Partners from Academic and R&D institutions,

As you know, the EUvsVirus **matchathon** is in full force now.

Since you have been quite willing to help the winning teams make positive impact to Europe and the world, **we acquired the specific needs** they have from the Universities, Healthcare centres and R&D institutes, both as institutions and as individuals. Please find them **in attach**.

Please go through them and see whether and **how you can be of help**.

If 'yes', please reply to us via this eMail (no other tools or platforms needed) and we get in touch so the project you would like to help gives more info and you actually touch base among each other.

Sincere gratitude to the ones who are already engaged heavily - and kind invite for all of you to have at least one assistance provided to the winning projects.

Please just reply to this eMail by this time tomorrow - with the number of the need you would like to match (first column, e.g. 5, 19). If you have questions, please do the

same. Most of the matchmaking is to be concluded this week and then hopefully, nice collaborations will improve this world!

We are thankful beyond words, we have many ways to express the gratitude, inclusion in the EIC Covid platform, being part of amazing network, ..., for which you will be notified in a separate eMail. We are working with all we can in this amazing project and team, so please join us as matching partners.

Kind regards,

Renata
