#### ➤ **EUA webinar: Universities and the European Open Science Cloud**

Friday, 4 September 2020, 10:00-11:30 CEST

EUA is organising a webinar on 4 September to present the progress of the European Open Science Cloud (EOSC) and to provide an occasion for the sector to discuss the initiative from a university perspective.

The EOSC is a major effort to connect research data services, such as storage, analysis and transfer, across Europe. The European Commission has stated that the EOSC “will enhance the possibilities for researchers to find, share and reuse publications, data, and software leading to new insights and innovations, higher research productivity and improved reproducibility in science.”

The EOSC will be implemented through a cross-cutting European Partnership within Horizon Europe. The Commission has released a proposal for this European Partnership. Meanwhile, a Strategic Research & Innovation Agenda and a legal entity (“EOSC Association”) are currently under preparation.

The EUA webinar is free of charge and open to anyone who is interested in the topic.

## Speakers

Karel Luyben, Chair of the EOSC Executive Board; Rector Magnificus Emeritus, TU Delft

Vinciane Gaillard, Acting Director for Research & Innovation, European University Association

Inge Van Nieuwerburgh, Co-ordinator scholarly communication, Ghent University

Ignacio Blanquer, Full Professor of Computer Science, Universitat Politècnica de València

Registrations will be open from mid-August until the day of the webinar. A recording will be available for those who are interested but unable to attend.

## ➤ **Call for expressions of interest to select up to four new members of the EIT Governing Board**

The European Institute of Innovation and Technology (EIT) is selecting new members for its Governing Board. Leading academics, entrepreneurs, innovators and researchers are encouraged to apply and help drive Europe's ability to innovate. The EIT Governing Board consists of 12 European innovation leaders appointed by the European Commission for a four-year mandate. It provides the EIT's strategic leadership and is independent in its decision-making. Specifically it is responsible for the selection, designation and evaluation of the EIT's Knowledge and Innovation Communities.

On 3 August 2020, the EIT launched a Call for expressions of interest for the selection of new members of the EIT Governing Board. The application deadline is 30 September 2020.

The new members of the Governing Board will be appointed through a Commission Decision, expected in 2021. In its appointments, the Commission gives regard to the balance between higher education, research, innovation and business experience as well as to gender and geographical balance.
