BIP SPECIFICATIONS

The primary aim of the program is to guide participants through the entire process of creating an authentic flamenco costume, from pattern making to final manufacturing.

In addition to this, students will delve into the rich tradition of flamenco design, understanding its cultural significance, proper usage, and the various accessories that complement the attire.

Our experienced teachers will accompany participants on excursions to select the finest fabrics, zippers, and threads that are most suitable for crafting high-quality garments.

ESSDM BIP

Students enrolling in the program should possess a fundamental knowledge of sewing and be proficient in using sewing machines. It is advisable for accompanying teachers to be present in the classroom to supervise and assist their students, ensuring a smooth learning experience.

While the creativity and unique contributions of participants are highly valued, we must consider the program's duration and rely on our specialized teachers to make final decisions regarding fabric selection and design choices.

This approach guarantees that the end result will be both stunning and satisfactory. Although the classes are conducted in Spanish, translation support in English will be available to aid understanding.

ESSDM BIP

Throughout the BIP program, several noteworthy events will be hosted. During their stay in Sevilla, participants will have the opportunity to experience the vibrant local culture through our event "Noche del Pescaíto," where they can savor typical Sevillian food and wine. The night will be alive with Sevillian music, showcasing the region's unique sounds and rhythms.

As the program concludes, participants will witness their creations showcased on a catwalk organized by us, an event that will be widely shared on social media platforms to celebrate their hard work and achievements.

Finally, on the last day, we will gather for a celebratory lunch, offering everyone another chance to indulge in our delightful local cuisine. This meal will be a fitting end to the program, allowing participants to reflect on their learning journey and share their experiences in a relaxed and enjoyable setting.

ESSDM BIP

The Blended Intensive Programme (BIP) will take place in Seville during the month of July. This programme offers an innovative learning experience that combines practical sessions on design, pattern making, and garment construction with an in-person stay in the city.

PROGRAM

Participants will explore a variety of designs, drawing inspiration to incorporate fresh ideas and even elements of their own cultural heritage. They will then visit a fabric store to select the most suitable materials for their creations. During this visit, they will also enjoy an exclusive masterclass on flamenco fashion, gaining insight into its artistry and tradition.

Participants will start working on pattern making. They will learn the unique pattern of flamenco dresses.

This evening is one of our most cherished experiences. Participants will immerse themselves in the vibrant atmosphere of the Feria de Abril, savoring the finest local gastronomy and discovering the joy of dancing sevillanas. It promises to be an unforgettable night filled with culture, flavor, and celebration.

All flamenco gowns created by the participants will be presented in a vibrant fashion show, complete with professional models, live music, dynamic photography, and full media coverage.

SEVILLA

Seville has established itself as a vibrant capital of design and culture, where tradition and contemporary creativity coexist naturally. The city breathes art in every corner—from its historic architecture to the new creative spaces that foster local talent. Flamenco, recognized by UNESCO as Intangible Cultural Heritage of Humanity, is one of Seville's defining pillars. This art form shapes fashion, design, music, and daily life, becoming a cultural force that inspires creators and visitors from around the world.

Colegio Mayor Careu has become a preferred accommodation option for students coming to study in Seville. Its academic atmosphere, modern facilities, and strategic location provide a comfortable, safe, and learning-focused experience for residents.
