

New website OG

1. 6. 2015, at 12.00, in [News](#) posted by [OG](#)

Welcome to the renewed website of the Department of geology (OG) at Faculty of Natural Sciences and Engineering (NTF). With the extension of content, new visual identity and friendly interface we want to improve the user experience of our students, employees and business partners. In addition, now through the quick menu, useful navigation and functional solution, all the information about the faculty, departments, chairs, staff, study programs, curricula, etc. is easy to get. In substance, we have upgraded the website so that you can browse through the video and photo galleries, connect to our social networks or simply enter the examination or event date in your calendar. Moreover, websites are now friendly also to your mobile devices and friends abroad, because from now on all content is available in English.

Because your opinion is important to us, please let us know what you think about new website. Contact us via email or leave a comment on our Facebook page.
