Enrolment into master's study programme of Geology is possible for whoever has completed:

1.  academic or professional Bachelor's program in geology or a comparable Bachelor's program in the field of Dostopnost geology, which is carried out at higher education institutions in Slovenia or abroad.
2.  university or high professional study program of First Cycle in other fields with minimum 180 ECTS, which
  -  are carried out at higher education institutions in Slovenia or abroad, if the candidate prior to admission
  -  complete additional academic requirements, relevant for the studies in scale from 10-60 ECTS. Additional
  -  requirements are set on individual basis by the study commission of the Department of Geology.

 In case of restricted enrollment the candidates will be ranked on the basis of their results in First Cycle (undergraduate study).
