Other services are charged in accordance with the [University of Ljubljana Price List](#).

* When calculating the costs of completing the missing study requirements, the UL member takes into account the credit point value of an individual course and the tuition fees (Article 13 of the Rules) for a particular year of the study programme. The cost of taking an exam from a particular course at the UL member is calculated by determining the value of the credit point based on the tuition fees for an individual year (one credit point is valued at one sixtieth of the tuition fees); this is then multiplied by the number of credit points for the course (Article 16 of the Rules).

**The points for issuing certificates are doubled for persons without a student status.

***VAT charges apply.
