

# Modes and forms of study

[NTF](#) › [TOI](#) › [Study](#) › [Master's Degree](#) › [Planning textiles and clothing \(MAG\)](#) › [Other information](#) › [Modes and forms of study](#)

The postgraduate study programme Textile and Clothing Planning is organised as a full-time study. Based on the needs expressed by the companies in the industry, it may also be conducted as a part-time study. The part-time study is performed separately from the full-time study, so that a minimum of 60% of programme contact hours are conducted.

- Courses are organised in the Slovenian language. The instructions for experimental work are provided in the English language to foreign mobility students. Parallel courses in the English language are organised if there are more than 5 students registered for an individual course and if the financing is ensured. Otherwise, the contents of lectures in English are provided in writing.
